Product Description:

Process Media:

Temperature:

pH Value:

Specific Gravity:

Viscosity:

Pressures:

Stuffing Box Pressure:

Suction Pressure:

Discharge Pressure:

Barrier Fluid Pressure (if applicable):

Please check the following:

Solids (Percentage: %)

❏ Product Hardens

❏ Product is Toxic

❏ Product is Corrosive

❏ Product Crystallizes (At what temperature:)

❏ Product Flashes at: Temp: Pressure:

Equipment Description:

Type of Equipment:

Manufacturer:

Model:

Size:

Frame Type:

Shaft Orientation: Horizontal Vertical

Shaft Speed:

Sleeve Material:

Casing Material:

Is Pump Currently Packed or Sealed?

Type of Seal Currently Used:

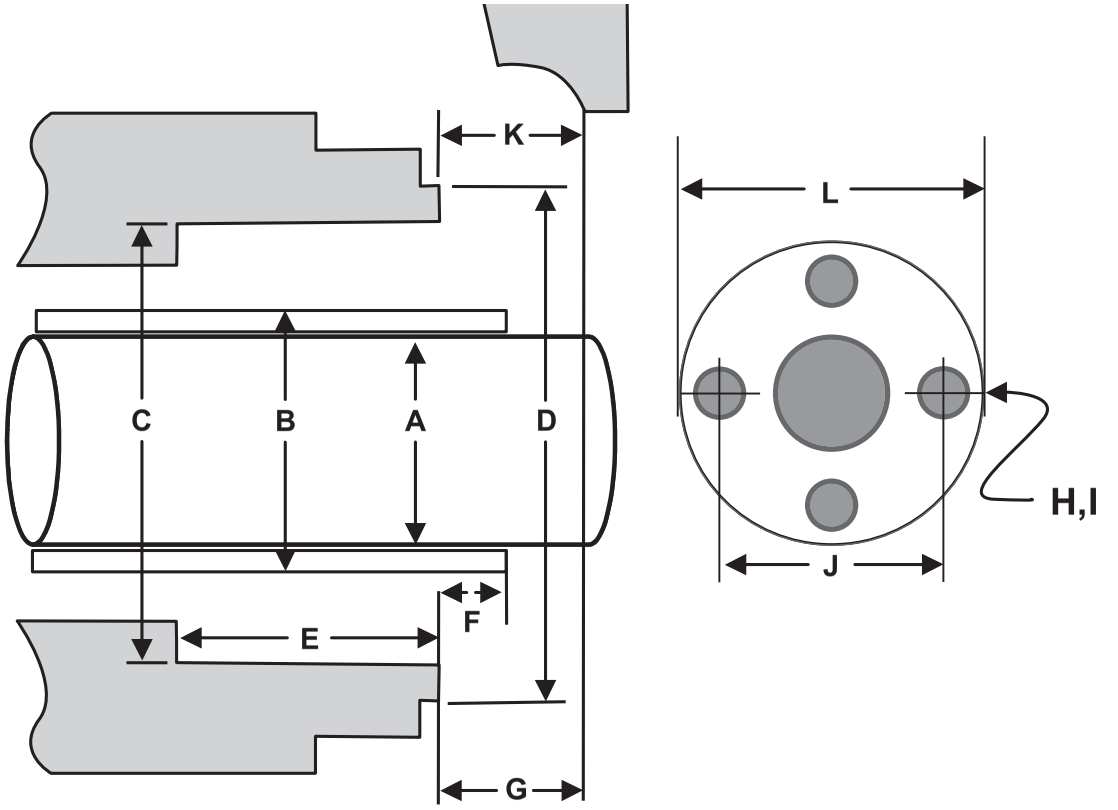
Barrier Fluid Tank? Barrier Fluid:

Barrier Fluid Pressure:

Cooling Jacket or Heat Exchanger?

API Piping Plan:

Any Special Equipment Modifications:



A Shaft Diameter:

B Sleeve Diameter:

C Stuffing Box ID :

D Stuffing Box OD (Register):

E Stuffing Box Depth:

F End of Sleeve to Stuffing Box Face:

G Nearest Obstruction:

H Bolts: Number Size

I Bolt Pattern:

J Bolt Circle (Center to Center):

K Frame Obstruction:

L Gland Outside Diameter:
